

In Thermowatt: WE VALUE OUR CUSTOMERS – We fully support our clients from product design to homologation, always suggesting the most adequate and technologically advanced solutions to solve our Customers' heating need WE EMPOWER OUR PEOPLE – Our people are our most precious asset: we focus on creating a unique environment for them to grow through teamwork, participation and by embracing creativity WE PURSUE EXCELLENCE – We continuously strive to be at the forefront of new market trends and of new technological developments, with a firm commitment to innovation, strong of our 70 years of technical experience in the field

Products from this brand

RTM rod-type immersion thermostat

Model: RTM

Category: Heater

Thermowatt RTM rod-type immersion thermostat with a brass sensing rod and red rotary dial, for electric water heaters.

RTS bipolar-safety rod thermostat

Model: RTS

Category: Heater

Thermowatt RTS bipolar-safety rod thermostat, rated 16A 250V, for electric water heaters.

RTS ERP PLUS rod thermostat

Model: RTS ERP PLUS

Category: Heater

Thermowatt RTS ERP PLUS rod thermostat with a green control head and white rocker knob, for electric water heaters.

RTS PLUS rod thermostat

Model: RTS PLUS

Category: Heater

Thermowatt RTS PLUS bipolar-safety rod thermostat, rated 16A 250V, blue-grey housing, for electric water heaters.

Screw-type immersion heating element (paired set)

Category: Heater

Thermowatt screw-type immersion heating element, sold as a paired set of two brass-flanged copper elements.

Screw-type immersion heating element (single-loop)

Category: Heater

Thermowatt screw-type immersion heating element with a single-loop copper element and brass screw-in flange.

TBSB three-pole rod thermostat

Model: TBSB

Category: Heater

Thermowatt TBSB thermostat with a die-cast metal housing, rotary adjustment knob, and capillary sensing tube.

TBST flange-mount capillary thermostat

Model: TBST

Category: Heater

Thermowatt flange-mount capillary thermostat with a copper sensing bulb, rated 16A 250V~ / 10A 400V~.

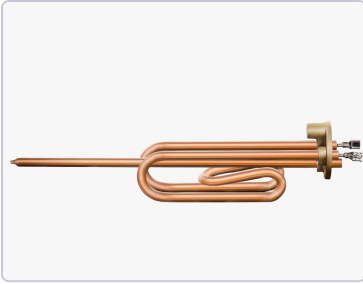

TMS three-pole rod thermostat

Model: TMS

Category: Heater

Thermowatt three-pole rod thermostat with a long rigid brass sensing rod, rated 16A 230V~ / 10A 400V~.

Flange-type immersion heating element (coiled)

Category: Heater

Thermowatt flange-mount immersion heating element with a coiled copper tube and two-terminal flange.

1-inch heating element (brass / titanium-gold / steel finish range)

Category: Heater

Thermowatt 1-inch flange heating element, available in brass, titanium-gold, or steel finish.

RTS-TW3 heating element with integrated thermostat

Model: RTS-TW3

Category: Heater

Thermowatt RTS-TW3 flange-mount heating element with an integrated thermostat control on the same unit.
