1-inch heating element (brass / titanium-gold / steel finish range)

Brand: Thermowatt

Category: Heater

Thermowatt 1-inch flange heating element, available in brass, titanium-gold, or steel finish.

DESCRIPTION

This Thermowatt heating element is offered with a 1-inch threaded mounting flange in a choice of finishes: a polished brass/gold tone, a warmer titanium-gold tone, and a plain steel finish, as shown side by side in the product photo. Each variant is a U-shaped tubular element with a red terminal cap at the flange end for wiring. No printed model number is visible on the parts.
