Car AC Cabin Air Filter (Activated Carbon)

`Model: RBC35667`

Category: Automobile

Activated-carbon cabin air filter for vehicle HVAC systems, listed under model number RBC35667.

DESCRIPTION

This cabin air filter uses an activated-carbon media to filter incoming air for a vehicle's HVAC system, helping to trap dust, particulates, and odors before air reaches the cabin. It is listed under model number RBC35667. As with any cabin filter, buyers should confirm this reference matches their vehicle's filter housing before ordering.
