Universal A/C control board, QD-U12A

`Model: QD-U12A`

Brand: MahbCool

Category: Spare Parts

Universal A/C control board kit (QD-U12A) with wired LCD controller, IR remote, and wiring harness.

DESCRIPTION

The QD-U12A is a universal air conditioner control system replacement kit from MahbCool, sold as a complete retail package. The kit includes the main control PCB, a wired LCD remote controller with a backlit display, an infrared remote control, and a wiring harness for installation. Per its packaging, it supports 5 operating modes (auto, cool, dry, fan, heat), 4 fan speeds, dual temperature sensors for coil protection and auto-defrost, and an auto-restart function after power loss.
