Dover R134a Quick Coupler (QC-MH)

`Model: QC-MH`

Category: Spare Parts

Dover R134a high-side quick coupler, model QC-MH, for A/C service hose connections.

DESCRIPTION

This is a Dover Cooling Systems R134a quick coupler, model QC-MH, supplied blister-packed with a separate brass fitting. It is used on the high side of an R134a automotive A/C service manifold to connect and disconnect charging/recovery hoses without releasing refrigerant. The coupler body has red knurled collars, matching the high-side color convention for R134a service equipment.
