Electronic refrigerant charging scale, model RCS-N9030

`Model: RCS-N9030`

Brand: DSZH

Category: Spare Parts

An electronic refrigerant charging scale (model RCS-N9030) with a control unit, LCD display, and charging hose set in a fitted case.

DESCRIPTION

The DSZH RCS-N9030 is an electronic refrigerant charging scale with a load-bearing platform and a handheld control unit featuring an LCD display and VALVE OPEN, TARE/ZERO, UNITS, SET/HOLD, RUN/STOP, and other function buttons, as printed on the unit. It is supplied as a kit with a set of color-coded charging hoses (yellow/blue/red) with brass flare fittings, batteries, and an instruction manual, all packed in a fitted blue carrying case. It is used to measure and program refrigerant charge weight during HVAC/R servicing.
