Cable / hose cutter (bypass shear, blue handles)

Brand: DSZH

Category: Spare Parts

A hand-held bypass-shear cutter with blue handles for clean cuts on hose or cable.

DESCRIPTION

This DSZH cutter is a hand-operated bypass-shear tool with blue rubberized handles and a riveted black cutting head, designed for clean cuts on cable, hose, or tubing without crushing the material. No brand or model markings are visible on the tool itself. It is a compact, one-hand tool suited for cutting refrigerant hoses and similar flexible lines during installation or service work.
