Tube cutter (black body, straight design)

Brand: DSZH

Category: Spare Parts

A straight-body black tube cutter with a blue feed knob and cutting wheel for copper/thin-wall tubing.

DESCRIPTION

This DSZH tube cutter has a black cast body in a straight, inline design, distinct from the compact right-angle mini cutters in the same line, with a cutting wheel and a blue knurled feed knob for adjusting the cut. It also includes a built-in guide roller mechanism for tracking around the tube during cutting. It is intended for cutting copper and thin-wall tubing used in refrigeration and air-conditioning installation.
