R134a quick-connect service coupler, blue (low side)

Brand: DSZH

Category: Automobile

Blue R134a quick-connect service coupler for the low side of automotive AC systems.

DESCRIPTION

This R134a quick-connect service coupler is for the low-pressure (low) side of an automotive AC system, identified by its blue top consistent with low-side color coding. It has a threaded chrome fitting with an open/closed control knob, and is supplied with a separate brass adapter fitting.
