Ariston Aures Multi electric instant water heater

`Model: AURES MULTI`

Brand: Ariston

Category: Water Heaters

Compact electric instant water heater from Ariston with a multi-power-level rotary control dial.

DESCRIPTION

The Ariston Aures Multi is an electric instant (tankless) water heater rather than a storage tank, built as a compact rectangular wall unit. Its black control panel carries the AURES MULTI label and a central rotary dial for switching between multiple power levels, marked I, II and III. It is designed for point-of-use instant hot water rather than stored-tank heating.
