Hermetic reciprocating compressor QB66C13GAX5

`Model: QB66C13GAX5`

Brand: Panasonic

Category: Compressors

Panasonic QB66C13GAX5 hermetic reciprocating compressor for R134a refrigerant, 220V/50Hz, made in Malaysia.

DESCRIPTION

This is a genuine Panasonic QB66C13GAX5 hermetic reciprocating compressor, confirmed by the manufacturer's label on the unit, which specifies R134a refrigerant, 220V, 50Hz, single-phase, thermally protected operation, and copper tubing, manufactured in Malaysia. It has the characteristic rounded-dome black shell of a reciprocating compressor, with copper pipe stubs and an electrical terminal block on the side, mounted on a steel base bracket. It is shown here with its original Panasonic packaging.
