Ariston compact round electric water heater

Brand: Ariston

Category: Water Heaters

Compact rounded-square electric water heater from Ariston with a temperature dial and °C gauge.

DESCRIPTION

This Ariston compact electric water heater has a small rounded-square white housing, sized for point-of-use or under-sink installation rather than as a full room water heater. The front carries the Ariston logo and a central control dial marked with a snowflake icon and E/MAX settings, with a separate round gauge below marked in °C. Two small vent or mounting holes are visible near the lower corners of the housing.
