Washing Machine Water Inlet Solenoid Valve (Dual)

Category: Washing Machines

Compact single-coil washing machine dual water inlet valve, model 5220FR2008H, rated AC110/120V, 50/60Hz, 6W.

DESCRIPTION

This washing machine dual water inlet valve is a compact single-coil unit in white and cream plastic, with one threaded inlet port fitted with a blue flow-direction insert on one side and barbed outlet spouts on the underside for the two fill lines it controls. The coil has a stamped metal top plate and a printed label reading model 5220FR2008H, AC110/120V, 50/60Hz, 6W. It mounts via the two-hole bracket at the base of the coil housing.
